Editors' Choices of 2014

**ATC Loudspeaker Technology SCM19 loudspeaker (\$4299/pair)**

"In addition to the musical and technical virtues of a competently executed sealed-box design, ATC's SCM19 two-way monitor (reviewed in June 2014, Vol.37 No.6) is big enough to make a major sonic impact in most listening rooms of reasonable size, and small enough not to trip over its own feet. Low distortion, zero fatigue, great looks, fair price. WNTL?"—**John Marks**
